

Wasp / Carpenter Bee Treatment

CLIENT PREPARATION FORM

For our company to provide the most effective service possible, we ask you to review and complete all the necessary steps listed below. The following steps will ensure that your technician is able to provide an effective and safe treatment.

How to Prepare for the Service

EXTERIOR OF THE HOME

- ▶ Move all planters, patio furniture that is in the proximity of the nest. Please be sure to exercise safety first and do not attempt to move large furniture.
- ▶ NEVER seal the entry points where wasps have been seen going into the structure.

After the Treatment

▶ **DO NOT** use other pest control chemicals (powders or sprays) or cleaning products anywhere near spray

treatment, as this will decrease or eliminate their effectiveness.

Reminder

▶ You or your pets don't need to leave your home before, during, or after the treatment.

▶ For the safety of our staff, please keep your pets secure while our technician performs the treatment.

What You Can Expect from the Treatment

▶ Your technician will use a number of methods to control the pest depending on each unique situation. Please do not move or tamper with any traps, monitors or products applied by your technician. These have all been strategically positioned to maximize their effectiveness. All treatments are made with your safety in mind to ensure your health.

All persons and pets should be kept away while the technician is treating the area for up to 24 hours afterward.
